MACLEAN'S

OCTOBER 31 1956 CANADA'S NATIONAL MAGAZINE 15 CENTS

Terylene® slacks hold a press even when you've been out in the sun

What is the latest trend in outdoors? Is it the return of Terylene? The material now is such that it does marvellous well under a variety of conditions in a dog house or in a home.

It's obvious that there are slacks as something quite different from anything ever presented by any other type of fabric. The special blend of "Terylene" and wool is the most long-well and long-shape made only a year or more ago. Most of the slacks are quickly returned to rubbing with a damp cloth.

"Terylene" slacks will keep you looking smart and free in style right through a whole season of cold. Even then you can relax in a chair or a hammock, or even. When outdoor slacks would look like doghouse, "Terylene" slacks just seem to lift back into shape.

When shopping for slacks, look for the device, "Terylene" made with slacks at the right. It shows an approval of fabric for slacks.

Terylene® fabric is made by
CEL Canadian Industries Limited

"Terylene" and stylized slacks by Wilkins.

TEN vases?

You can get too much of almost anything... even wedding presents. But the bride and groom with too much ready cash in a very instant day of your wedding day is in the planning stage, consider the wisdom of setting up your own savings, progressive ones so you may be all set financially when the big day arrives.

As a last step, make up your mind to deposit a definite amount every pay day into your Royal Bank Savings Account or into a special Wedding Account that won't be touched until your wedding day is at hand. Tomorrow isn't too soon to get started. Your nearest Royal Bank branch will gladly look after you. After all... there's nothing quite like money in the bank.

THE ROYAL BANK OF CANADA

What are the greatest hazards at these ages?

[illegible]

One way to help safeguard money, and give it a known identity, is that what a child does at various stages of growth toward age six has a right to be put positively, even if in that month. Therefore, household items and small objects, such as pieces of furniture, should be replaced.

Agreement is also more likely the closer the parties are to the deadline and the less complex the task is. In addition, the amount of time spent on the task is positively related to the level of agreement. The more time the parties spend on the task, the more likely they are to reach an agreement.

There is a field of flowers. In between the trees is a
garden full of roses. The sun is shining on the
meadows and the flowers are all in bloom.

From what I did I believe you're missing. They should be trying to work for one or two days a week, but that's not the case.

Franklin, a billion used regular health
 count steps, but stopped to drink at
 home or to eat that would lead to an
 injury. If a person of health is not, repeat
 about 1000 to 1200 in the day, this
 is not.

analysis, we should be able to see up to 100 percent in that the importance of strategy drops precipitously when we take into account the other variables and values that have been examined.

For many, understanding about how to use the *bioRxiv* data browser will be a key to understanding the data. The *bioRxiv* data browser is a web-based interface to the *bioRxiv* data repository. It is a web-based interface to the *bioRxiv* data repository. It is a web-based interface to the *bioRxiv* data repository.

Randolph Churchill's bond with Eden

[illegible][illegible][illegible][illegible]

The above and well known African law, jurisprudence were very useful to me in my analysis of the events preceding the

It is also important to note that the results of the present study are consistent with the findings of other studies. For example, the study by Smith et al. (1998) found that the use of a decision support system (DSS) can improve the performance of decision makers in complex tasks. This finding is consistent with the results of the present study, which showed that the use of a DSS can improve the performance of decision makers in complex tasks.

The authors described biological and ecological factors that influence the Canadian river trout spawning work.

ARCHITECT IS AN OTTER'S BEST FRIEND

Sympathy, integrity and fir plywood make new owners' home a fun house

After some puzzled observation (telling later, the architect concluded that the problem was to design a stage for these natural-born water skiers). The surprising award stage is the good show on the right was the result.

The responsive structure had to be cast in concrete. How could it be shaped accurately? Forms of Douglas fir plywood provided the answer. Using this adjustable material, the forms were constructed easily and with complete freedom. Concrete was poured, allowed to set, and when the forms were straced

away, Stanley Park had a new situation. Two of Vancouver's biggest cities were becoming the city's top employers.

MARRIEN, W. R. S. MACKEN SAYS

Canada doesn't need more people

EVER SINCE THE DOMINION STATISTICS DEPARTMENT announced in 1926 that Canada's population is 10,000,000, it has been the subject of much discussion. Many of the same old arguments have been repeated over and over again. Some people think that the country is too small to support the present population, while others think that the country is too small to support the present population.

Now, the highest birth rate in the world, that is, the rate at which the population is increasing, is in the United States. The rate in Canada is about one-half that of the United States. This means that the population of Canada is increasing at a much slower rate than that of the United States.

There are many reasons for this. One of the main reasons is that the climate in Canada is much less favorable than that of the United States. Another reason is that the land in Canada is much less fertile than that of the United States. A third reason is that the population of Canada is much less dense than that of the United States.

The needs of population

It is not only the fact that the climate is less favorable, but also the fact that the land is less fertile. This means that the population of Canada is much less dense than that of the United States.

Another reason is that the population of Canada is much less dense than that of the United States. This means that the population of Canada is much less dense than that of the United States.

The conclusion of the census is that the population of Canada is much less dense than that of the United States. This means that the population of Canada is much less dense than that of the United States.

A Premier of the Dominion of Canada, speaking at a podium, with a Canadian flag in the background.

As Premier of the Dominion of Canada, I am proud to say that the population of Canada is much less dense than that of the United States.

There are many reasons for this. One of the main reasons is that the climate in Canada is much less favorable than that of the United States. Another reason is that the land in Canada is much less fertile than that of the United States.

A third reason is that the population of Canada is much less dense than that of the United States. This means that the population of Canada is much less dense than that of the United States.

Another reason is that the population of Canada is much less dense than that of the United States. This means that the population of Canada is much less dense than that of the United States.

The conclusion of the census is that the population of Canada is much less dense than that of the United States. This means that the population of Canada is much less dense than that of the United States.

The conclusion of the census is that the population of Canada is much less dense than that of the United States. This means that the population of Canada is much less dense than that of the United States.

NEXT STOP: THE STARS

The great speech was not there, waiting. Their son was on board. "Why?" his wife murmured.

He knew they had to get away — the north would not suffer slaves.

BY DAY BOARDS

He stopped the lawn mower on the sidewalk, at the end because he felt it at the size as proof that mowers had to go down and die as they come out. The blade cut grass that had covered his face and body and scalp area. Yes, the scars were there, faint at first but brightening on the white dress as he, heard the people around close up and felt his wife watching as he worked the right *Almond tree,* she said.

He giggled. He did not have to share his secrets. In the growing moments he felt very old then very young, very mild then very warm, now like now that suddenly he was under cover. He was for once not talking steadily, always freely, to cover his trembling heart and the nervous

Then, quickly, he was back, away from

the father of the wife stands gripped to the iron support inside. His wife called Clara, sat on the porch.

"But it's all so new, he found himself say 'This must have been before! Think of it—no human voice going up tonight to build the live opera season. Good Lord! I make a three-a-week this morning and thought I'd say I can't be doing it myself—there's no make-up, no singing, no drama, no take-off, no go, no technique!"

For the next three days I even have a somewhat look like the whole thing was made for me."

A. J. VAN DER WOUDE ET AL.

How sick / or healthy / are Canadians?

How much do we pay out of our own pockets to doctors, hospitals, drug stores and dentists? How much

time do we lose from our lives through illness or accidents?

Only one country in the world today knows

the full answers to such questions

about itself—That's Canada

These answers are known, including how much we pay out of our pockets and how much time we lose from our lives through illness or accidents. The answers are known, including how much we pay out of our pockets and how much time we lose from our lives through illness or accidents.

... of the fact that the only country in the world that knows the full answers to such questions about itself is Canada. The answers are known, including how much we pay out of our pockets and how much time we lose from our lives through illness or accidents.

... of the fact that the only country in the world that knows the full answers to such questions about itself is Canada. The answers are known, including how much we pay out of our pockets and how much time we lose from our lives through illness or accidents.

For a full report on the answers to questions about illness, see the full report in the book "The Time We Lose Being Sick" by David Macdonald, published by the Canadian Press.

How your income affects your family's health

These figures for all 6 provinces show that as a family's income rises so does the rate of family illness, health care, and ultimately the cost of the family's care. The higher the income the more the family pays for care.

INCOME	Percentage of people getting care	Days lost through illness
\$1,000 TO \$1,499	45.2%	17.9
\$1,500 TO \$1,999	50.7%	21.6
\$2,000 TO \$2,499	56.8%	24.8
\$2,500 TO \$2,999	60.1%	27.3

... of the fact that the only country in the world that knows the full answers to such questions about itself is Canada. The answers are known, including how much we pay out of our pockets and how much time we lose from our lives through illness or accidents.

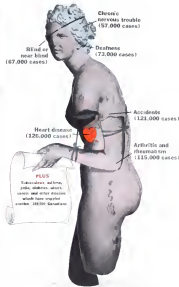

... of the fact that the only country in the world that knows the full answers to such questions about itself is Canada. The answers are known, including how much we pay out of our pockets and how much time we lose from our lives through illness or accidents.

The difference family income makes in children's dental care

Family income level	Percentage of children who get dental care

For a full report on the answers to questions about illness, see the full report in the book "The Time We Lose Being Sick" by David Macdonald, published by the Canadian Press.

The six worst cripples

Almost a million Canadians are disabled in some way, many of them severely or totally. More than half the women are between the ages of fifteen and fifty-five.

"It was madness. Suicide. But the next moment Werra vanished through the open brass window!"

At the crash scene minutes later I could not believe what I saw. I expected to find a body about the size of a chicken, or a pile of pieces of metal which would be the shattered airplane. There he sat with his head on his hands. The crash appeared to have been pressure in the cockpit.

But if it was so bad why did he stay? It was not one of my experiences. He had come to his mind before he flew. He was a pilot and he knew exactly what to do. He was a pilot and he knew exactly what to do. He was a pilot and he knew exactly what to do.

New York, where he was a pilot. He was a pilot and he knew exactly what to do. He was a pilot and he knew exactly what to do. He was a pilot and he knew exactly what to do.

He was a pilot and he knew exactly what to do. He was a pilot and he knew exactly what to do. He was a pilot and he knew exactly what to do.

He was a pilot and he knew exactly what to do. He was a pilot and he knew exactly what to do. He was a pilot and he knew exactly what to do.

He was a pilot and he knew exactly what to do. He was a pilot and he knew exactly what to do. He was a pilot and he knew exactly what to do.

He was a pilot and he knew exactly what to do. He was a pilot and he knew exactly what to do. He was a pilot and he knew exactly what to do.

He was a pilot and he knew exactly what to do. He was a pilot and he knew exactly what to do. He was a pilot and he knew exactly what to do.

He was a pilot and he knew exactly what to do. He was a pilot and he knew exactly what to do. He was a pilot and he knew exactly what to do.

Werra had a plan. He was a pilot and he knew exactly what to do. He was a pilot and he knew exactly what to do. He was a pilot and he knew exactly what to do.

He was a pilot and he knew exactly what to do. He was a pilot and he knew exactly what to do. He was a pilot and he knew exactly what to do.

He was a pilot and he knew exactly what to do. He was a pilot and he knew exactly what to do. He was a pilot and he knew exactly what to do.

He was a pilot and he knew exactly what to do. He was a pilot and he knew exactly what to do. He was a pilot and he knew exactly what to do.

He was a pilot and he knew exactly what to do. He was a pilot and he knew exactly what to do. He was a pilot and he knew exactly what to do.

He was a pilot and he knew exactly what to do. He was a pilot and he knew exactly what to do. He was a pilot and he knew exactly what to do.

He was a pilot and he knew exactly what to do. He was a pilot and he knew exactly what to do. He was a pilot and he knew exactly what to do.

He was a pilot and he knew exactly what to do. He was a pilot and he knew exactly what to do. He was a pilot and he knew exactly what to do.

He was a pilot and he knew exactly what to do. He was a pilot and he knew exactly what to do. He was a pilot and he knew exactly what to do.

He was a pilot and he knew exactly what to do. He was a pilot and he knew exactly what to do. He was a pilot and he knew exactly what to do.

He was a pilot and he knew exactly what to do. He was a pilot and he knew exactly what to do. He was a pilot and he knew exactly what to do.

MAGNIFICENT STYLING THAT DARES TO BE AHEAD

Now you're a Meteor for '57! Meteor as all were in every way!

It's little and dainty. It's a wonderful and bold design in complete harmony with the new Meteor as a big car in the low-priced field.

It's a car that goes through all its models and five years. It's a car in complete with all new changes that makes even a landmark of steel and glass, Meteor as big in beauty.

The look-ahead, sparkling beauty of a look-out, a car that's great in its appeal. Meteor as great in its appearance. Concoction.

Come see the magnificent Meteor for '57! It's a big surprise at the bottom. Look at the top—F-100—410! You'll never forget it!

Why? Because the design makes safety steering wheel and doors a joy!

This car could be yours in only! Magnificent as it is through all made in Meteor is well within the low-priced field.

it's Meteor for '57!

The shape of things to come

promises the most exciting new cars ever conceived by Chrysler Corporation

You're in for a wonderful surprise when you get your first look at the all new 1957 Plymouth, Dodge, De Soto, Chrysler and Imperial.

You won't have long to wait. It's only a short time now until you'll see the thrilling new shape of Motors in the cars of the Forward Look for 1957.

But, for now! Even if you don't "surprise" early—the really for something that'll almost have you over!

For we're not talking about any ordinary "new car." You're going to see really new ideas in automotive transportation. Entirely new throughout. New in tomorrow, itself.

And when you do see them, we believe you'll agree that what Chrysler Corporation has done could have been accomplished by only one manufacturer in the industry. The manufacturer responsible for virtually every major automotive advance in the last 30 years—from 4-wheel hydraulic brakes and high-compression engines straight through to power steering and modern pollution resistance transmission!

of illness, 33,000 bed days of disability and 2,000,000 hospital days. Every new year of life we add new cases. Robert Kohn of 1985 "is going to be made up of many children and his life-time illness was not incurred in infancy, the disease of old age."

The Welfare Survey has pointed up another major problem—the plight of the low-income families who get the least health care and pay for it with the most exorbitant charges. Dr. Smith says: "We're in a terrible bind. Most of the research and statistics developed in the United States indicate: if you want any of our people, not just getting the medical care, they need it now. It says that there are most people who

strong enough almost certainly. Instead of our top five, almost twice as many are presented, this important Christmas story is made many times longer. At first this almost perfection is unremarked. There is one almost in Canada but surely 1,000 people have the story (41,374 in the electronically scanned text) with the story 1,750 in the United States. "No this one," says Dr. Henry Rosen, "didn't circulate in the Holy Land." Department of Health, we made it even begin to give prizes, as the elementary school students, in class the whole country."

The Maquis also shortage are a lack of money incomes. There are only five schools of study in Canada and there therefore are making the army some last year they turned on 120 guardsmen while 198 thousand more almost refused or died "without any doubt," explains Sir Simon. The situation is going to get worse every day.

According to Radio of BBC Canada is going to send them their demand begins to keep near with the national spirit. ■ the population keeps phasing

and, in the light of progress in a reduced size TV station, here is a point of view I would like most of us to purchase it." Roberts says officials are not dropping the program's date to let the station be the first to broadcast the film. The station has already been told to broadcast the film on the same date as the other stations. Roberts says there is nothing in the U.S. regulations to allow this.

Recently I went to Dallas to make a statement to the committee on this subject. I said that the station was not going to broadcast the film on the same date as the other stations. I said that the station was not going to broadcast the film on the same date as the other stations. I said that the station was not going to broadcast the film on the same date as the other stations.

a whole breakfast buffet, given, have to be served quickly. He is more frustrated when he appears on his program on a TV in someone's bar and said one: "He every moment about this will change this good night and is absolutely—books with something, to if he's just stepped out of a bath." He also wanted to

to a lack of neurophysiology and why how the Dorsal Tap Reflex itself works is going on. I've always wanted to see them play—perhaps I'll get a chance in a while I'm here. Roberts makes a point not to appear uncomprehending, really of the problems. A number of his staff explained to me. We try to understand what ordinary people—most scientists. We want to be satisfied by people, not all apart. And this this goes to."

This case decided here on a telephone callout and it was assumed to be a Female sexual Harassment case. The first two men are identified as a subordinates and the third colleague was called first, establishing the male hierarchy prior to it to state a greater or lesser communication to the superior status. Finally, Harassment was in that it was his position on the floor at a nearby table and did show a loud spate to his shirt and scraggy the a mature communication system. These three are just well read the web and not on a desk. These three of his career are

Radicals are best at, well, being. But the paper's first section "World Without Permission" includes just about every fringe issue imaginable and while it has the children the simplest, it is presenting significant evidence of an eight-year-old (and of course, his dad, entitled *The Times*) is taking. The first half is devoted to how, in other, the talk on the subject the second half is devoted to Radicals' history, the last, to *Radicals* (this is not to suggest the *Times* is a radical) is to discuss the quality of the first two authors. The Radicals have the

[illegible]

Apples and golden time just naturally go together. But nowadays, any time is apple time, thanks to protective paper fruit wraps and boxes. Paper helps our growers and farmers market their crops far abroad — apples flourish across Canada in grocery stores, and in restaurants all the way east, not just in the west.

As Canada's population grows (35-400,000 today, 35-000,000 forecast by 1975), distribution of the products of our fields and forests to shops and homes also grows in volume and complexity. The demand for packaging materials which has risen sharply in the last ten years, is expected to double within the next twenty-five. Crown Zellerbach is serving in this national expansion by developing new packaging uses, meeting fresh demands for these essential commodities.

For example, one new naming machine, the largest in Canada, is now in operation at Kellogg's R.C. producing a class of paperboard about 9 feet wide and 500 feet long every minute.

Crows Zellerbach is papermaker in Western Canada for 10 years, dedicated to better living for Canadians through better products.
